SALOMON

Our history begins in a small workshop, with a family dedicated to honing the craft of tuning unassuming pieces of metal, into perfectly gripping ski edges. Edges whose sharpness shaped skiing culture for the past three quarters of a century. As the years went by...

Our vision challenged conventional ski norms. Our gear always adapting to meet the needs of a constantly evolving sport. We got bigger, and sharp edges are now only part of our expertise. We took risks on and off the slopes. Often, we won. Yet, sometimes we failed. What is failure but an opportunity to learn?

Hand in hand, on the snow, we learn from the best. From those who dedicate their lives to perfecting their skiing. Our family is now made of inventors, designers, engineers, World Champions, mountain lovers, ski veterans and new recruits. With their help, we continuously shape new trends. Every year our products get more sophisticated, but our standards never change. In our world, performance is a way of life and excellence is our norm. We are limit pushers and progress seekers.

WE ARE THE SALOMON FAMILY, AND WE HAVE BEEN PROUDLY TRANSFORMING SKIING SINCE 1947.

S/RACE FIS SL 165

12m **NEW**

L47548100+

Upgrade your racing performance, master even the fastest turns.

Built to improve your mastery of every turn, especially when every hundredth of a second counts, the S/RACE FIS SL is a powerful racing ski with a 13 m radius. Featuring Salomon's trailblazing Blade technology, it's stable and powerful underfoot, yet lively and instantly reactive when initiating and exiting even the tightest turns.

ICON RS 16

Progress your racing,
carve to the top.

TOE STEEL **REINFORCEMENT**

Enhanced with metal reinforcements at both the toe and heel, these bindings offer heightened rigidity for more responsive control and a stable sensation even at high speed.

FULL FLAT **RACE PEDAL**

A completely flat pedal that grants absolute precision and terrain feedback, especially when combined with Alpine racing boots.

CENTRALIZED **POWER TRANSFER**

By strategically placing screws under the boot, this mounting pattern maximizes racer's underfoot power and enhances the tip and tail's reactivity and rebound.

S/RACE BOOTS

Choose the right skiboots
that fit your expectations.

S/RACE² BOOTS

Progressive and tolerant
geometrie and module.

FULL SERVICE

LARGER PLASTICS

Polyurethane ether - To charge
through the gates with full control
and confidence.

LOWER MODULE

MORE PROGRESSIVE AND TOLERANT

HEAVIER

S/RACE BOOTS

Direct and aggressive
geometrie and module.

FULL SERVICE

THINNER PLASTICS

Polyurethane ether + Xecarb®
cuff reinforcement - To provide
the right snow feeling for victory.

HIGHER MODULE

MORE DIRECT AND AGRESSIVE

LIGHTER

360° 65 MM DUAL CLAW

Made with a claw system to allow
for low elasticity and better lower
leg hold, it ensures maximum
power transmission.

WORLD CUP LINER

Delivering the highest level of
performance and foothold, while
a specific World Cup tongue
allows better shock absorption.

S/RACE² 140 WC

L47049700

The uncompromised fit and performance racers need at their feet.

Engineered in collaboration with Salomon's racing team, the new S/RACE² 140 WC is designed to increase skiers' competitive edge through every phase of every turn. This ski boot's race construction and World Cup liner will provide you with the lightness and precision needed to charge through the gates with extreme control and confidence.

1 CONSTRUCTIONS**Injected ABS****› ROBUSTNESS AND DURABILITY**

Made from a single injection of ABS beads, this construction delivers high durability, shock absorption, impact deflection and resistance to penetration.

**Fiberglass****› RACING COMPLIANCE**

Certified to FIS RH 2013 standards, these helmets can be used in GS, SG and DH ski races. The construction features a multi-impact EPS and EPP liner and a durable fiberglass shell. Available only on our S/Race model.

**2 SAFETY****twICEme****› PROVIDES SAFER ADVENTURES**

twICEme is a technology integrated in some of our helmets, allowing for more efficient emergency responses in case of an accident. twICEme is read by placing an NFC-enabled smartphone on the twICEme symbol. twICEme gives instant access to uploaded information such as medical information, ICE contacts, personal identifiers, insurance info and exact coordinates.

**EPS4D****› BETTER SHOCK REPARTITION**

The traditional EPS structure is hollowed out to create pads that absorb an additional 30% of shocks without impacting the complete structure of the helmet. This also improves ventilation by creating air channels and reduces the amount of material used, lowering the helmet's environmental impact.

CHECK THE EPS4D VIDEO

**3 FIT****Custom Dial 360 V****› SIMPLE FIT ADJUSTMENT**

The Custom Dial 360 V provides added versatility and a more fine-tuned adjustment to the helmet. All around and an additional vertical adjustment in the neck, it allows a tighter fit and perfect stability. Just loosen the knob for a more relaxed fit.

SIGMA

Sigma™ is Salomon's innovative lens solution that significantly amplifies color contrast on snow, enabling the eye to instantly read terrain variations.

A high-contrast lens cannot perform at its best in all types of environments. That's why Salomon's Sigma™ lens **was specifically developed to better interpret snowy terrain.**

The eye is made up of blue, green and red cones that detect different colors of light. But in a snowy environment, white light reflected from the snowy triggers all three cones and makes it hard to see detail.

Sigma™ lenses reduce the green light in the middle of the spectrum, therefore **boosting the blue and red light** transmitted. It offers less confusion between these 2 colors, so **the snow appears sharper, with more clarity and detail.**

REGULAR YELLOW LENS

SIGMA™ LENS

Available in category 3, 2, 1 and photochromic 1 to 3, Sigma™ lenses are the perfect solution for premium vision whatever the light conditions.

* no tolerance * -5cm tolerance

For masters athletes the ski length is a recommendation (except SG)!

No restrictions regarding length, width and radius for women above 55 and men above 65!

The FIS recommendations and rules for ski length, radius and profile width can be found in the current FIS Specifications for Competition Equipment!
